Description of Change Request

To replicate the WH3 feature in WH4 (Salvage Winder Warehouse), the system should print a QR code of the Roll ID/TAPPI Code on the PM2 Salvage Winder after the winder assistant has completed adding or updating the details of rolls per set.

Proposed Change

To add QR code sticker printing in 5D PM2 Salvage Warehouse (WH4).

Reason for Change

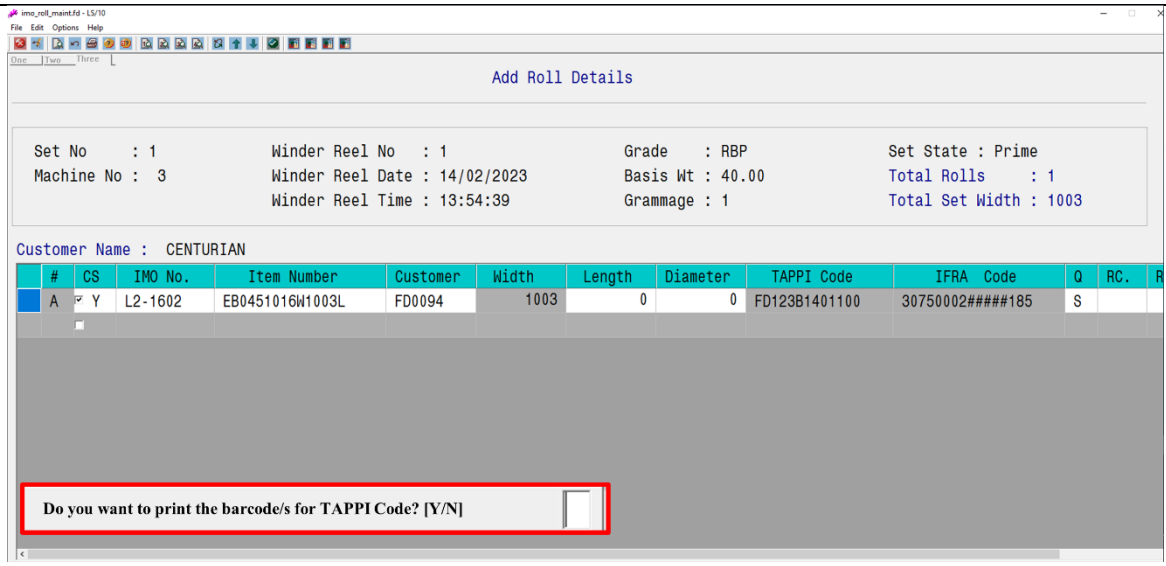

To reduce human errors and prevent riffle effect on roll finishing and Shipping inventory.

Impact Assessment

Implementing QR code printing on the PM2 Salvage Winder is expected to enhance operational accuracy and efficiency, with manageable risks that can be mitigated through careful planning and execution.

Solution Recommendation

Add a confirmation message box on Add Roll Details and Edit Roll Details modules after the user is done adding/editing roll details asking if they want to print the barcode for roll ids. If yes (Y), proceed with the printing of the barcode/s.
