Description of Change Request

Purpose of the change request.
To have an automatic computation of EWT upon invoicing.

Proposed Change

Describe the proposed change in detail.

1. *An enhancement in LS10- APMR wherein upon invoicing the EWT will be automatically computed base on the required percentage.*
2. *There will be an option to what percentage the EWT will be computed, base on the net amount.*
3. *There will be an option to input GL account for EWT that will be booked as default credit balance, same with the existing option for VAT (default debit).*

Reason for Change

Explain the business need or technical requirement that justifies this change.
To properly monitor the EWT and will be tally with the suppliers' invoices and declaration of EWT.

Impact Assessment

Please provide an assessment of the impact of this change on the project/task
During audit, we encounter concerns regarding the accuracy and the difference of treatment in EWT. To avoid future assessment.

Solution Recommendation

Describe the proposed solution or approach to implement the change.
For ICTD to make an enhancement in the system.
